

SUMMARY OF QUALIFICATION

A dedicated student recognized for academic excellence. Possesses strong technical skills honed through rigorous coursework. Demonstrates creativity, effective time management, and exceptional collaboration as a reliable team player.

EDUCATION	B.S. in Biomedical Engineering, University of Vermont, Burlington, VT	May 2026
CORE STUDIES	Core II: Materials & Transport (Spring 2023): Link to Course Project - Studied biocompatibility, durability, and mechanical strength of materials used in medical devices. - Explored molecular movement in biological systems, focusing on drug delivery and oxygen transport. - Tested material properties, simulated transport scenarios, and evaluated medical device performance in laboratory exercises. - Solved real-world problems in material selection, device design, and transport processes through collaborative, project-based learning. Core III: Systems and Signals (Fall 2024): Link to Course Project - Developed and evaluated low-pass, high-pass, and band-pass filters using frequency and impulse response analysis for a variety of real-world applications. This process incorporated both visual and mathematical modeling techniques. - Detected and mitigated signal impurities, including noise and artifacts introduced by electrical biosignals. Identified key signal properties such as periodicity, continuity, linearity, and time invariance. - Engineered an analysis pipeline to estimate autonomic nervous system activity from ECG signal data captured by a wearable sensor. Conducted comprehensive data analysis utilizing Python, NumPy, SciPy, and Pandas.	
SKILLS	Action Orientation: Own challenges, envision the future, manage risks, surpass goals. Strategic Decision Making: Sharp, decisive analysis for optimal outcomes and risk reduction. Innovative Problem Solving: Harness creativity and adaptability to surmount daunting challenge.	
WORK EXPERIENCE	07/2024 09/2042: Camp Counselor Lead Pine Grove Day Camp Leadership: Lead Counselor for camp gymnastics-focused class. Creativity: Designed coherent, safe, and effective programs for children ages 5-13. Communication: Disseminated and advocated for class curriculum to full-time camp leadership. Listened to and incorporated parental input. 06/2020 09/2023: Customer Service and Brand Associate Chilis Restaurant (06/2023 - 09/2023) - Managed customer queuing for efficient seating. - Addressed customer feedback to enhance satisfaction. Ryans Ice Cream (07/2022 - 09/2022) - Handled nightly cash accounting and distribution. - Collaborated with team to manage peak customer arrivals. Surf Taco (03/2021 - 06/2022) - Trained new hires in company procedures and policies. - Filled in during staff shortages as needed. Old Navy (06/2020 - 01/2021) - Maintained a customer-facing role during the pandemic. - Enforced pandemic protocols effectively.
